## Exposition Coins Attract Attention

Display Of Beautiful Collection On Exhibition At The First National Bank—Two \$50 Pieces

Mention has been made in these columns of the interesting collection of the interesting collection of Panama-Pacific Exposition commemorative coins recently secured by the First National Bank of Wailuku, and now on exhibition there. The following is a description of the various coins in the collection all of which are unique in design and colorage.

In the series of commemorative coins authorized by Act of Congress to the Panama-Pacific International Exposition, there is seen for the first time, a \$50 gold piece authorized by the Government of the United States.

The issue of this denomination is limited to not over 3000 pieces and it is provided that one-half of the issue shall be octagonal in shape. These are the first octagonal coins to be produced by our Government.

The coming of the first \$50 gold piece was an event of considerable celebration and local interest at the San Francisco Mint. Representatives of the Government, State, City and Exposition, together with notable representatives of foreign governments were present at the coming.

In addition to the two shapes of the \$50 gold pieces, there are included in this series, One Half Dollar in silver, One Dollar in gold and Two and One Half Dollars in gold. On the gold dollar appears an artist's ideal of labor, this being the first time the sons of toil have been honored on the coinage of any nation.

The following description of the coins by the designers has been supplied to us by the Exposition:

**HALF DOLLAR SILVER**—

Designed by Charles E. Barber, issue limited to 200,000 pieces.

Obverse: Columbia scattering flowers; attendant with cornucopia to signify the boundless resources of the West. Background, Golden Gate illuminated by the rays of the setting sun. Inscription: PANAMA-PACIFIC EXPOSITION—1915. Reverse: Shield of the United States surmounted by American Eagle and supported on the one side by a branch of Oak, emblem of strength and stability, and on the other side by the olive branch of peace. Inscription: UNITED STATES OF AMERICA—HALF DOLLAR—IN GOD WE TRUST.

**ONE DOLLAR GOLD**—

Designed by Charles Keck, issue limited to 25,000 pieces.

## Pertinent Paragraphs

The Maui industrial accident board, at its meeting held on Wednesday afternoon allowed the sum of \$1,500 to Mrs. Maria Vieira, as compensation for herself and children for the death of her husband, Manuel Nunes Vieira, an employee of the Wailuku Sugar Company, who was killed some months ago when a rock rolled down upon him while he was opening a water gate in Iao Valley. The board also ordered that a trustee be appointed to administer the amount in the interests of the beneficiaries.

Dr. E. S. Goodhue, of Honolulu, Hawaii, has just published an interesting and valuable pamphlet entitled, "Responsibility of Mothers for the High Death Rate in Children." It is reprinted from notes of a lecture given by Dr. Goodhue as a professor of diseases of children, at Riverside, California. The little treatise on the proper care of children comes at an appropriate time when Honolulu and the rest of the islands are more or less interested in holding a "Baby Week."

Governor Pinkham, who has spent all this week on Kauai looking into the homesteads and water-rights muddle on that island, is expected to return to Honolulu tomorrow. It is possible that the Governor will visit Maui next week, presumably for the purpose of looking into the matter of the appointment of successor to Philip Pali, on the board of supervisors, and other matters.

The Hana Improvement Club has petitioned the board of supervisors to repair the lower Hana road, which was badly damaged some months ago by a storm. The board decided that it will take a look at the road in question as soon as possible, and then take steps to have the damage repaired.

Owing to the resignation of Miss Franc Eaton as domestic science teacher in the Maui Central High School, Mrs. W. S. Nicoll is substituting in that position until the arrival of a new teacher who has been engaged on the coast, and is to arrive in about two weeks.

As a farewell to F. W. Jennings, of Kahului, who will leave with his wife in a few weeks for Michigan on account of his health, the local members of the Elk fraternity will hold a social session on Saturday evening of next week at C. D. Lufkin's beach home.

By an order of the board of supervisors, the county road through the Kulaha homesteads running eastward from the Haliu cannery, will be closed for traffic for the next month or more, while the work of macadamizing is in progress.

Mrs. Ida L. H. Collins has been appointed to the principalship of the Kulaha school, made vacant through the resignation of Mrs. E. A. Turner. Mrs. Collins opened the school for the spring term on last Monday.

A number of petitions for and against Sunday moving pictures are before the board of supervisors for action at this week's meeting. They may be taken up this afternoon or tomorrow for consideration.

E. S. Gillin, of Wailuku, who left for the coast about six weeks ago, returned last Saturday, and has resumed his position as draftsman for the Maui loan fund commission.

The supervisors have instructed the county engineer to take steps for replacing the Nahiku bridge, and to order lumber for the same from Honolulu at once.

Misses Margaret and Dorothy Hair were the charming hostesses at a picnic beach party at Paia, last Friday. About a dozen of their young friends were present.

The supervisors this week approved the recommendation for the construction of a brick incinerator for the Maunaloa hospital.

The lumber schooner Melrose, which has been discharging a large cargo at Kahului during the past week, is expected to get away for the coast tomorrow.

Obverse: Head representing Labor, through whose efforts the Panama Canal became a reality. Inscription: UNITED STATES OF AMERICA—1915. Reverse: Two dolphins, indicating the meeting of two oceans, surround ONE DOLLAR—PANAMA-PACIFIC EXPOSITION—SAN FRANCISCO.

**QUARTER EAGLE (2½) GOLD**—

Designs by Charles E. Barber, issue limited to 10,000 pieces.

Obverse: Columbia seated on the mythical Sea Horse. Columbia with the Caduceus, the emblem of trade and commerce, inviting the nations of the world to use the new way from Ocean to Ocean. Inscription: PANAMA-PACIFIC EXPOSITION—1915. Reverse: American Eagle on a standard and bearing the motto E PLURIBUS UNUM—UNITED STATES OF AMERICA—2½ DOL.

**QUINTUPLE EAGLE (\$50) GOLD**—

Designs by Robert Aitken, issue limited to 3,000 pieces ROUND and OCTAGONAL. The first Fifty Dollar gold pieces to be issued under the authority of the United States. The motives used in this coin were selected by the sculptor because of their decorative pattern. Obverse: Minerva, the Goddess of Wisdom, Skill, Contemplation, Spinning, Weaving and of Agriculture and Horticulture—UNITED STATES OF AMERICA—FIFTY DOLLAR—MCMXV—IN GOD WE TRUST. Reverse: Owl, sacred to Minerva, the accepted symbol of Wisdom, perched upon a branch of western pine. PANAMA-PACIFIC EXPOSITION—SAN FRANCISCO. In field, E PLURIBUS UNUM—The designer's initials, R. A. Dolphins, suggesting as they encircle the central field, the uninterrupted water route made possible by the Panama Canal, occupy the angles of the octagonal coin.

## Waikapu Cinch Cup In Sensational Game

Last Game In Winter League Championship Set Fans Wild—Saints Made Gallant Struggle

In a somewhat loosely played game, but one full of excitement throughout, the Waikapu defeated the St. Anthony team last Sunday by a score of 11 to 10. This game finished the championship series, and gave to the Waikapu the coveted E. O. Hall & Son cup, for which the winter league had been playing. The game was watched by a large and enthusiastic crowd of fans, and the result was uncertain up to the making of the last run, with the score tied several times, there was excitement in plenty. This was the third game in the 3 out of 5 concluding contest, each of the teams having previously won a game.

Both teams had their best man on the diamond for the deciding game, and the last little men of the Saints, especially little shortstop "Ging."

Commencing Abe Kekipi and J. Sylva made a lot of trouble by connecting with Kala's delivery in the first inning and scoring three runs.

This score was tied in the first and second innings by the Waikapu, and they again commenced walloping Hansen's under benders in the third and fourth, netting 9 runs altogether.

The Saints then commenced fighting an uphill game which showed their pluck. Kekipi, the star pitcher of the Saints, was sent in to relieve the situation but was too late. He was found for two runs.

In their first half of the ninth, Sterling of the Saints, with his mighty war club pelted the ball for a honor over Marwell's head. This happened and Kekipi died at first and two men on bases, one on first and third respectively.

The score then stood 11 to 10 against the Saints. Hansen's powerful arm then pelted a long drive between center and left which looked like a homer, but Marwell, in one of the prettiest and most sensational running catches of the year, saved the day for the Waikapu and ended the game.

## OUR ISLAND CONTEMPORARIES

## Some Gall!

The bluff of the Great Northern steamship people was called good and hard when Honolulu people offered to guarantee the sum of \$25,000 in order to reimburse the company if the steamer did not make a certain sum in the ordinary freight and passenger manner during the time she was asked to remain on the Hawaii run. The turning down of many thousands tons of freight also contributed to the calling of the bluff, and then the fact dawned upon many people that the company had no intention of remaining on the Hawaiian run during the summer months. The steamer simply was put on the run in order to avoid the expense of having her lie idle for the winter on the Coast, awaiting the usual traffic to start up again on the mainland.

And now the steamship company has the gall to say that if the sum of \$40,000 is guaranteed them for two trips, they will put the steamer on the Hawaii route just one month earlier than they intended to do. The obvious reply is: "If the Great Northern people want to come in November instead of December, let them come on their own bottom, without any guarantee or anything else that is any surer than the ordinary passenger trade that generally sets in about that time to Hawaii." Ten thousands dollars a week is a bit too steep a bonus to pay a steamship company in order to have about a thousand or so "tourists" rushed through the islands at top speed. If the steamer takes up her usual twenty day schedule again, it would mean just about two trips in November, and yet people are asked to pungle up \$10,000 for the wonderful privilege of seeing the big ship in port twice. It is not good enough, in the opinion of most people, to pay forty dollars a head to have travelers brought to Hawaii for such a short time as is usually given them by the Great Northern. —Hawaii Herald.

Governor Pinkham was unperturbed when plastered with mud in a auto mishap on Kauai. The governor's enemies have been slinging mud at him so persistently during the last couple of years that the executive is probably pretty well used to it. —Star-Bulletin.

## Want Territorial Fair

The suggestion that an All-Island Fair be held next year is one that should receive the earnest consideration of all public spirited men in the various islands of the group. Hilo will soon have her second fair; that it will be successful seems almost beyond shadow of a doubt. Maui is talking of following Hilo's lead and there can hardly be the slightest doubt but that Oahu will soon realize the advantages which are to be derived from such exhibitions. Hilo blazed the trail in the islands so far as Civic Conventions and County Fairs are concerned, and should the proposition to inaugurate an All-Island Fair be carried, it would be but a just recognition of Hilo's initiative and administrative ability to hold such an exhibition in this city. By that time, it is probable that a location suitable for such an undertaking will have been obtained. Make the coming fair as great a success as possible and thus convince visitors from the other islands that Hilo is the logical place at which to hold such a fair and half the battle will be won. —Hilo Tribune.

## MILITARY SANITORIUM

One thing the people of Honolulu can do for the soldier is, through the chamber of commerce, to take up with Washington the matter of the establishment of a military sanatorium somewhere on the highlands of Hawaii, in the neighborhood of the Volcano, or on the upper slope of Haleakala. There exists a need for such an institution, where army convalescents may be sent for a change of climate. At the present time many of these are sent to the Coast to recuperate. —Advertiser.

## Hilo May Have Baby Week.

Hilo might well take a leaf from Honolulu's book and institute a "Baby Week." During the last week in April, certain of the Honolulu doctors will examine all babies presented to their attention free and prizes will be awarded to the infants gaining the highest rating. No medicines or treatment will be given free, but mothers will be informed as to whether or not the babies are in need of medical attention. "A stitch in time saves nine," we have been told from time immemorial; here a word to the mother may save the child from untold misery in years to come. —Hilo Tribune.

## TO REPEAT C. E. CONCERT

The concert given by the Kaunakakai Church Christian Endeavor society, at the Valley Isle Theatre, two weeks ago, proved such a success that the members have decided to repeat the program on Saturday night, April 22, at the Paia Orpheum. One of the attractive features of the first concert, aside from the excellence of the music, was the special scenery, and stage setting. This will be used again at Paia. The proceeds of these concerts is to be used to swell the fund which will take the society to Hilo next June, when Maui will be called upon to defend the Kate Atherton banner which its now holds, in the big inter-island choir contest.
